The 299D2 is Cat's biggest and most capable D-series compact track loader, powered by the proven **Cat C3.8 turbo engine** with the **High Flow XPS hydraulic system** delivering up to **120 L/min at 4,061 psi** — the high hydraulic horsepower that power-hungry attachments like mulchers, cold planers and stump grinders need to perform at full production. Fitted with **Two Speed travel** for productive ground speed, and sold with a **4-in-1 bucket included** (tilt bucket available at additional cost). Prepared with a **fresh 250-hour service** and comprehensive **workshop report** through our brand-new purpose-built facility on the Sunshine Coast QLD.
