A superbly-presented, genuinely low-hour 2014 Caterpillar D6K2 XL dozer — with **only 5,100 hours** and a **brand new complete undercarriage**, this is one of the tidiest, most ready-to-work D6K2s you'll find.

The D6K2 is the well-proven machine that Caterpillar later renamed the "D4", powered by the clean, efficient **Cat C6.6 ACERT engine (130HP)** with a smooth **hydrostatic transmission**. This one is in the sought-after **non-DPF / non-AdBlue configuration** — no emissions-system hassles — and is set up right: a **brand new genuine CAT MS ripper, sweeps and screens, ARO wired** for plug-and-play GPS, and **fresh factory stickers** for a sharp presentation.
